Heritage® Oak (*Quercus macrocarpa* x *robur*)

Origin: Heritage Trees, Inc., (Hybrid Bur x English Oak)

Mature Size: large (>45' tall)

Description: Heritage® Oak has a moderate growth rate and upright/oval growth form in youth, becoming rounded with age. It has relatively clean, glossy foliage and adapts well to different soil conditions. It will occasionally have minor pest problems, but these do not usually affect the long-term health of the tree. Fall color is yellow to yellow-brown. Heritage® oak will produce acorns. Oaks in general can be somewhat difficult to transplant, and may require a higher level of maintenance (watering and pest control) in the first few years after planting.
