

# CITY OF ROCHESTER HILLS TRANSPORTATION MASTER PLAN

## WHAT IS A TRANSPORTATION MASTER PLAN?

*A Transportation Master Plan is a review of the entire transportation system, including vehicles, pedestrians, safety, and congestion. The plan will provide recommendations for accommodating future growth and trends.*

## JOIN US IN OUR VIRTUAL WORKSHOPS!

Previously, an online survey was released in order to learn about your transportation priorities. To see how your input has helped shaped the plan and continue to give feedback, join us during our **Virtual Public Workshops on Monday, November 9th at 7:00 P.M. and Thursday, January 7th at 7:00 P.M.**

Monday, November 9th meeting link: <https://mksk.zoom.us/j/93333927057>

Thursday, January 7th meeting link: <https://mksk.zoom.us/j/97324578303>

Please visit the Rochester Hills website <https://www.rochesterhills.org/> for more information and to gain access to the workshops. These meetings will be recorded so if you are unable to attend live, you can listen to the presentations and discussion on our website. An online survey will also be available after the workshops for you to provide feedback.

## PURPOSE OF THE PLAN

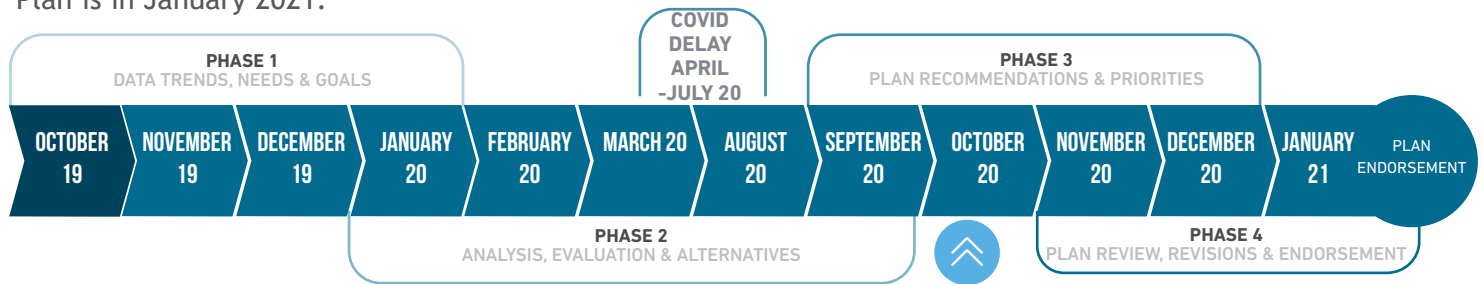

The plan will identify strategies to improve:

- Traffic
- Traffic signal technologies
- Street and intersection redesign options
- Nonmotorized improvements

Key corridors in the City will be highlighted in the plan to help improve safety for all users (pedestrians, bicyclists, and vehicles).

## PROCESS AND TIMELINE

Due to COVID-19, progress on the Transportation Master Plan was delayed for a few months. We are now in the third phase of the process, developing plan recommendations and priorities. The expected completion of the Plan is in January 2021.
